

MANGA GLASS

Manganese Ore – Manganese dioxide

Raw materials for Glass Industry

KIMPE proudly offers MANGA GLASS, a manganese-based solution designed for the glass industry. Acting as a powerful oxidizing agent and coloring agent. MANGA GLASS guarantees consistent performance and reliable results with optimal flowability.

Applications

- ✓ *Production of glass wool insulation*
- ✓ *Manufacturing of special dark-colored glass*
- ✓ *Technical glass formulations requiring oxidizing action*

POWDER FORM

Finely milled manganese powder, easy to handle and dose in glass formulations. Ensures reliable performance and consistent results.

TECHNICAL SUPPORT

Our experts provide tailored assistance, in-plant trials, and full analytical documentation (TDS, SDS, chemical and granulometric analysis).
