

POTASSIUM CARBONATE

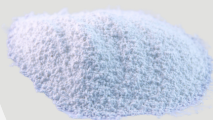

K_2CO_3

Raw materials for Glass Industry

KIMPE proudly offers POTASSIUM CARBONATE, a high-purity raw material widely used in the glass industry. This versatile additive improves brilliance, stability, and gives glass its characteristic bright sound, making it an essential component in fine and technical glass.

Applications

- ✓ *Crystal glass with enhanced brilliance and resonance*
- ✓ *Decorative and table glassware requiring clarity and brightness*

POWDER FORM

Fine potassium carbonate powder, easy to handle and integrate into glass batches. Ensures stable performance and reliable quality.

TECHNICAL SUPPORT

Our experts provide tailored assistance, in-plant trials, and full analytical documentation (TDS, SDS, chemical and granulometric analysis).
